Brand New, 300 lb Clear-ice Block Machines

Ice Makers ,Englewood, Colorado, United States

Description

I have several new clear ice block machines available. These machines were manufactured by our sister company, Vinter Craft.

- 1/2 hp Copeland condensing units.
- Stainless-steel hardware used throughout.
- Stainless-steel underside on all lids, providing you with a cleanable surface. No exposed foam!

Stainless-steel options available. Have part or all of the machine built out of stainless-steel.

We have machines IN STOCK! Save money without sacrificing quality!

If you prefer to hook up multiple machines to 1 condensing unit, we can sell you just the machines without condensing units. We can size/source a larger condensing unit for you, or you can have your refrigeration company handle it.
